TechConnect

Head Down Your Training Path at the ACDelco Training Website

ACDelco offers a number of training opportunities for Professional Service Center program members. Service center technicians can take a variety of hands-on, Web-based, and self-study courses covering all aspects of technical automotive repair. With all these options, it can be tough to keep track of what courses have been completed, or what courses to take next. The new training paths available on the ACDelco training website provide a road map to planning successful training efforts.

Go to www.acdelco.techconnect.com, click the Training tab and launch the ACDelco Learning Management System. Enter your login information to view a training progress report customized to your training records under the Manage My Training section. The training progress status report provides an at-a-glance snapshot of progress made toward completion of each training path. Click the "Click Here to Show Detail" link to be taken to your detailed training path, where you can quickly launch courses to complete your desired training.

The status report shows all the training paths to which a person is currently assigned, followed by a chart that identifies the courses completed

In each path. When select training paths (Brake Specialists, Electrical and Electronics Specialists, Engine Performance Specialists and Heating & Air Conditioning Specialists) are completed, participants receive a custom Training Excellence Specialist magnetic medalion to proudly display in the shop.

The status report also can be displayed to show detailed classes for each training path. Click the course number and title to view details on a specific course, launch or enroll in the course, or to test out of the course (Note: test out option only available for specific courses).

Manage My Training

The Manage My Training section on the ACDelco training website provides links to many options, all on one screen, to make it easy to plan and track training, enroll in courses and record completed training. These links include:

- Training progress status report
- Schedule of enrolled courses
- Training path
- Training records and history
- Certificates received for completed courses
